#### PROPERTY DESCRIPTION

This aptly named property, perched right on the beach, offers luxury accommodation in idyllic surroundings perfect as a peaceful and regenerative getaway, or the source of impressive rental income, depending on your preference. Luxury home builders, Cayman Structural Group, may have exceeded even their own highest standards when they came up with this stunning beachfront home! Cayman Structural Groups craftsman-like approach truly leaves no detail to chance, no matter how small, and can be appreciated throughout this home with its high-end finishes, a huge chefs kitchen with top-of-the-line appliances where you can easily entertain a crowd, and a back patio that sits directly on the beach. With its 4 bedrooms and 4-and-a-half bathrooms offering comfortable accommodation for at least 10 people, your family and guests will enjoy complete privacy. Ocean views fill the windows, affording magnificent sunrises every morning step onto the porch and enjoy a dip in the beachfront pool or relax with a drink in the cabana on the beach. Buyers will appreciate the complete peace and tranquillity that epitomizes East End, an away-from-it-all location that still maintains the laid-back style of old Cayman the islands that time forgot. For those looking for other ways to be active on, or under, the water, the Beach House is within easy reach of the local diving centre and is the perfect kite-boarding spot with reliable breezes in many directions. Want to travel around the island in your own boat? This property includes a 90-ft dock to indulge the sailor in you.
