The collection of homes that makes up Compound Kai, Grand Cayman started with the acquisition of one of the Cayman Kai's finest beach front properties, a luxurious four bedroom residence overlooking a bay that by day offers an incredible vista of the Caribbean Sea and by night provides one of the few places in the world where nature's bio luminescent light show can be observed within its pristine waters. Two adjacent lots were added to the original property creating a unique site with over three hundred feet of beach front and almost an acre of land. A second luxury residence was then built adjacent to the original home, maintaining the architectural appeal of the first property but evolving the concept with an open plan living area and modern finishes throughout, resulting in a contemporary Caribbean feel and accommodating four additional bedrooms.
