Stepping Stones is one of Cayman’s most promising and rapidly developing covenanted land subdivisions. Significant growth is anticipated, particularly following the government’s confirmation that construction of the East-West Arterial extension—from Lower Valley to Frank Sound—is set to begin in September 2026. This lot was cleared and partially filled several years ago, with an initial layer laid several feet deep. Approximately \$25,000 has already been invested in land preparation, offering added value from the outset. Large enough to accommodate a duplex, this property presents an excellent investment opportunity or an ideal site for a future home.
